MEMORANDUM FOR: DDS&T

25X1

SUBJECT : The [] Program

1. Enclosed is Copy #8 of a study of the [] Program prepared in DIA and sent to me by the Director, DIA, in my capacity as Chairman of the National Intelligence Resources Board.

25X1

2. I find the study a very interesting treatment indeed and would be grateful for your comments on it at an early date. Of particular interest is Conclusion 4 which suggests that there might be some advantage in integration of the [] Programs which would eliminate [] [] as presently conceived and would eliminate the need for a separate command, control and processing center.

3. Admittedly, cost figures on all of these programs are apt to be inaccurate. If they're in the ball park, I don't need any comment on them. If they're way out of line, I would appreciate any comments you may have on that aspect, too.

Rufus Taylor
Vice Admiral, U. S. Navy
Deputy Director
